Subject: Re: Approval for Sampling at the Gold King Mine

Roger that.

We will be collecting samples as soon as the second set of glassware arrives and will continue the response action at the mine immediately following the collection.

I'll let you know once we are done.

Thanks

Myles

Myles,

This morning we spoke to Shaun McGrath, Region 8 Regional Administrator and received approval to perform the sampling at the Gold King Mine. Regional Administrator McGrath also approved the recommencement of shotcrete application activities once the samples have been collected. Thank you for your patience.
